## What to do:

Plan for a safe place in case you cannot get out of the house.

- Make sure there is a phone or personal alert in the room to call for help.
- Make sure there is a window so you can either get out or call for help. Stay by the window if you can't get out.
- Close the door and seal the bottom with towels or blankets to stop smoke getting in.

## Call **999** or **112**

- Ask for the fire service.
- Speak calmly and clearly.
- Give your address and phone number. If you are calling on your mobile, say what county you are in.
- Only hang up when the operator tells you to.

## Don't:

- **X** Go back into a burning house for any reason.
- **X** Borrow batteries from the smoke alarm.
- ★ Have mirrors over fire places with real fires. Your clothes might catch fire if you stand too close to look in the mirror.

## Remember:

Be careful when using portable electric, gas or oil heaters.

- Don't use heaters near furniture, curtains or beds.
- Don't leave heaters on when you go to bed.
- Take care if pets are near the heaters.
- Don't use heaters to dry clothes.

# Fire safety at home

#### **FACTS!**

- On average 46 people die each year in fires in Ireland.
- Fires do not always happen to other people.
- The next fire could be in your home.

## Prevent fire

#### Don't:

- **x** Smoke when you are in bed, tired or on medication.
- X Leave the room when there are candles burning.
- Leave young children alone near an open fire or cooker.
- Leave matches and lighters where children can get them
- Leave the room when a chip or frying pan is on even for a minute.
- ✗ Overload electric sockets one socket, one plug.
- ✗ Use electric appliances that don't work.
- Run electrical appliances from a light socket.
- Use a heater or the cooker to dry clothes
- ✗ Use petrol or paraffin to light a solid fuel stove.

#### Make sure to:

- Clean your chimney and service your heating system at least once a year.
- ✓ Use a sparkguard with open fires.
- Keep your gas cylinder outside, on solid ground and away from anything hot.
- ✓ Use a proper holder for candles.
- Keep a suitable fire extinguisher and fire blanket in the kitchen.
- Empty ashtrays before you go to bed. Run the contents under the tap before you bin them.
- Repair or replace faulty electrical appliances immediately
- Do a fire safety check before you go to bed.
- Close all doors at night.

## **Detect fire**

Smoke alarms give you an early warning of a fire. 82% of fires that kill people are in homes with no working smoke alarm.

- ✓ Fit a smoke alarm in every room (except the bathroom and the garage) to protect your home. Fit a heat alarm in the kitchen.
- ✓ Test your smoke alarms at least once a week.
- Change the batteries every year.
- Change the battery right away when you hear the warning beep.

# Escape

Know what to do when you hear a smoke alarm so you and your family can get out safely.

- Make an escape plan for your home and practise with everyone who lives with you.
- ✔ Plan at least two ways out in case one way is blocked by fire.
- ✓ Have a meeting point in a safe place outside the house.
- ✓ Keep your way out clear day and night.
- ✓ Keep the keys to doors and windows nearby.
- Know where the nearest phone is to call the fire service.
- ✓ If you hear the fire alarm, check doors with the back of your hand for heat before you open them. If they are warm, the way might be blocked by fire.

#### FACT!

Over 1,000 people every year attend casualty with burns or scald injuries.
(HIPE & NPRS Unit ESRI)

# Fire safety check

A fire safety check only takes a few minutes but it could mean the difference between life and death. Make it part of your routine before you go to bed.

## Every night:

- Turn off gas appliances.
- Put out candles and naked flames.
- Place a spark guard in front of open fires.
- Empty all ashtrays.
- ✓ Keep your way out completely clear.
- Close all doors.
